Kissinger sees lesson in ship

WASHINGTON (AP) — Secretary of State Heny A. Kissinger said today American rescue of the U.S. cargo ship Mayaguez, seized by the Cambodians should teach the world the United States will not be pushed around.

Kissinger told a news conference the successful military operation against Cambodia on Wednesday "ought to make "have said a second American serviceman clear there are limits beyond which the United States cannot be pushed and that the United States is prepared to defend its interests."

Giving what he said was a full account of the Mayaguez rescue operation, he said for 60 hours from the time the Cambodians seized the vessel on Monday that President Ford tried to give diplomacy every chance to work.

However, Kissinger said, "There was no chance during the crisis to resolve it diplomatically.

At no time he said, did the Cambodians make any response to American demands that the ship and its 39-man crew be re-

Kissinger said he knew Cambodia had received American messages about the

ship because the United States had delivered them to the Cambodian Embassy in Peking.

Meanwhile, a Pentagon spokesman said one U.S. serviceman was known to have been killed as Marines assaulted the island of Tang in the Gulf of Thailand during the rescue operation. Other Pentagon sources

The spokesman, Joseph Laitin, said 13 American servicemen are still listed as missing after they went down in a helicopter in open seas during the recovery. He said an additional 22 Marines and Air Force men were wounded, at least three of them seriously.

Laitin also disclosed that U.S. military operations, especially strikes by U.S. fighter bombers, were much more extensive than had een previously reported.

In addition to one air strike Cambodian air base at Ream. Laitin said U.S. warplanes also hit fuel storage facilities adjacent to Kompong Som harbor.

At Ream, he said, Air Force planes fired on locations where 2,400 Khmer Rouge troops were known to be housed.

The Americans, all employees of the U.S. Agency for International Development - AID - have been under loose house arrest since student demonstrators took over the town Wednesday.

Two high ranking ministers were due to have flown to Savannakhet today but were unable to leave because air force units were demonstrating at the Vientiane airport. A lower ranking government delegation was sent to Savannakhet on Wednesday.

The campaign to purge rightists from positions of influence in the Laotian government and armed forces continued with a demonstration by about 200 pilots at Vientiane's Wattay air base. They demanded the dismissal of the air force chief, Gen. Buathong Photmivong.

The Thai government announced that the U.S. Embassy informed it the last of the 1,100 Marines left Utapao air base, on the south coast, late Thursday night.

Gulf admits contributions

WASINGTON (AP) — The chairman of Gulf Oil Corp. said today his company made \$4 million in illegal political contributions to the ruling party in Korea; \$460,000 in donations to the former ruling party in Bolivia, and \$50,000 in donations for a "public education program" in the United States about the Arab-Israeli conflict.

The idea of beautifying the Joplin monument came shortly after last year's Scott Joplin Ragtime Festival, Foster' explained. Permission to undertake the project has been obtained from the City

Council. Work on the project is expected to begin Monday, City Street Superintendent Vernon Ditton said. Once the city's work is completed, the commission will complete the landscaping work.

However, he also said local merchants have volunteered to pay for the trees if the city will handle the cost of planting them.

The question also arose regarding ownership of Ohio street. The commission decided to find out whether ownership

County gets grant Pettis County Thursday night was a third alternative for judges to consider awarded a \$15,000 grant by the Show-Me Regional Council on Criminal Justice to establish a foster home program for juvenile offenders. The awarding of the grant was

contingent on the county's assurance that it will underwrite \$1,500 to help supplement the program's cost, if necessary. However, Prosecuting Attorney Gary

Fleming said Friday, the circuit court will require parents of youths placed in foster homes to pay part of the program's cost. Hopefully, Fleming said, the combined payments from all parents will provide the \$1,500, thus not requiring the county to expand any funds.

The foster home proposal was developed by the Sedalia Council on Drug Abuse. The program, council chairman Earl Finley explained last week, is designed to provide

when imposing sentences on juvenile offenders. Judges now must either sentence youths to state juvenile correction centers or put them on probation, he said.

Meeting with the Show-Me council Thursday night in Warrensburg were Fleming, Eastern District Judge Russell McFatrich, Sheriff Emmett Fairfax and Police Chief William Miller.

A committee of citizens to administer the program, consisting of between 5 to 10 county residents, will be named soon, Fleming said.

The program will actually begin in approximately 60 days, following the completion of remaining paperwork and the securing of foster parents under the supervision of the citizens committee, Fleming said.

U.S. slow to act on request

WASHINGTON (AP) - American officials indicate they are in no hurry to respond to the new Saigon government's overture for diplomatic relations with Washington and that they are uncertain just what the United States is being asked

Provisional Revolutionary Government leaders in Saigon disclosed Wednesday that they are willing to have diplomatic relations with all countries of the world, including the United States.

They said their conditions for relations with Washington are that the United States respect South Vietnamese sovereignty and that it live up to its responsibilities under the 1973 Paris accords. On this latter point, there was no elaboration.

Normally, the only American requirements for recognizing a new government are assurances that it is in full control of the country and that it will abide by its international obligations. But officials suggested the Vietnamese

case won't be quite that simple. Currently, the Saigon government is under what is known as a military management committee led by Col. Gen. Tranh Van Tra. But it is uncertain how far his rule extends.

It is expected that South Vietnam eventually will come under the exclusive control of North Vietnam but officials here say they have no idea when that day will come. It also is unclear how long the military management committee will hold power or if any plans are being made for transition to a new style of govern-

These factors enter into American thinking as the recognition question is being weighed here.

It is a puzzle to some U.S. officials that the rebel group known as the Viet Cong which the United States tried to destroy over a 20-year period extended an olive branch to Washington just 16 days after: achieving victory.

In contrast, Cuba is still seething over the Bay of Pigs invasion 14 years after it occurred and only now shows interest in normalizing relations with Washington.

In a related development Thursday the new Saigon government announced it has sent a note to the United States declaring that Algeria has been designated to handle South Vietnamese interests and assets in Washington.

By GEORGE W. CORNELL AP Religion Writer

NEW YORK (AP) - Mormons esteem strict rules in regard to sex but they also esteem sex. In fact they maintain that upholding clear-cut disciplines about it enhances the goodness of sexual union itself and constitutes a particularly pro-sex stand.

'You bet we're pro-sex," says Ruth Funk, who as general president of the Young Wom-en of the Church of Jesus Christ of Latter-day Saints-Mormons-supervises a vigorous, wide-ranging program for

180,000 single, young women.
"Sex is one of the most beautiful aspects of life, the ultimate expression of human love in its spiritual dimensions," she says. "It's a sacred act, the divine spark of our existence that magnifies our capabilities beyond self.'

However, Mormons hold that an through marriage and chil- The youth program, probably

dren has such excelling worth that it nurtures not only this life on earth but potentially a future life in heaven. Weddings in Mormon temples are for all eternity. "When you see marriage for eternity, you look at it through different eyes," said Mrs. Funk, of Salt Lake City, who directs a year-round program for young women of charthe most extensive for youth carried on by any church, includes dancing, drama, sports, music, public speaking, camping, handicrafts, painting, religious courses, weekly meetings and service projects.

Throughout the process, the strict standard forbids premarital sex, but encourages long courtships, not only in social settings, but in work and various types of experiences. At the church's Brigham Young University, premarital sex is cause for summary expulsion. Studies indicate Mormon training makes for comparatively fewer cases of it.

The most recent annual figures for Utah show a divorce rate for the general population of 6.68 per cent but only 1.46 per cent for marriages sealed in Mormon temples, a form of marriage increasing among

Missionaries 'shadowed' by CIA

acter building, leadership train-

ing and development of talents.

The objective is "self-mas-

tery and self-discipline and the

these disciplines," she said.

NEW YORK (AP) - Representatives of American missionaries overseas, whose work depends on their being trusted by people of other lands, say that recent disclosures of CIA activity abroad have jeopardized mission efforts.

"It creates suspicions and puts the missionary in a precarious position," says the Rev. Charles P. Davignon, of the Catholic Foreign Mission Society of America, whose about 1,000 far-flung members popularly are called Maryknoll missioners.

"Our work has been put under kind of a shadow."

Similar anxieties have arisen in numerous missionary agencies, both Protestant and Catholic, as accumulating information emerges about undercover CIA intervention in affairs of foreign countries, particularly in Latin America.

"A lot of missionaries are nervous about it," says the Rev. William Wipfler, an Episcopal priest and head of the National Council of Churches Division of Overseas Ministries. 'We see signs it could begin

the closing of doors," he added in an interview.

Altogether about 42,500 American missionaries labor in countries abroad, 7,500 of them Catholics and 35,000 of them Protestants. Nearly 12,000 of them work in Latin America.

The Rev. Eugene Culhane, of the Latin-American division of the U.S. Catholic Conference in Washington, D.C., says revela-tions of clandestine CIA manipulations in foreign cultures cause their people to "put up their guard" to missionaries.

"It's going to reduce the rapport," he said.

The uneasiness in missionary circles first began generating last fall after disclosures about CIA expenditures in Chile to buttress opposition to the Salva-dor Allende government in the period before it was overthrown in a military coup.

Graduate

Terry Lynn Reid, son of Mr. and Mrs. Elmore Reid, 918 Sue Lane, will receive the master of religious education degree during spring commencement exercises at Southwestern Baptist Theological Seminary, Fort Worth, Tex., on May 16. He received a B.A. degree from Southwest Baptist College, Bolivar. He is married to the former Elizabeth Irene Fisher.

The greatest meat eaters in Latin American section of the the world (figures include animal organs and poultry) are the people of Uruguay, with an average consumption of 10.93 ounces per person per day in 1964-66. The lowest consumption of meat in the world is 0.16 ounces per person per day in Sri Lanka (formerly Ceylon) in

in North Vietnam In the Western diplomatic view, these substantial Catholic minorities may have helped to prompt overtures of conciliation by the North Vietnamese and Provisional Revolutionary governments as they neared victory in the war.

Provinces in North Vietnam which have large numbers of Catholics received special praise for their patriotism and economic achievements.

The Provisional Revolutionary Government last month issued a glowing account of Catholic support in the fight against the American-sponsored Thieu administration in Saigon. It said 300 Catholic priests held a meeting in Can Tho in the Mekong Delta last July to condemn the administration's 'corruption.

"A Catholic-led popular committee against corruption held big rallies in Hue; other cities - Saigon, Bien Hoa, Can Tho - followed suit." the government said.

It is significant that the Church, which had always extended vigorous support to Ngo Dinh Diem (assassinated in 1963 in an army officers' plot). then Nguyen Van Thieu, should now keep its distance from the latter. The mass of the Catholic faithful had gradually awakened under the impact of events and no longer blindly obeyed the hierarchy. Young priests openly stood for national independence and social progress and went to prison together with revolutionary mili-

Legislature passes bill

JEFFERSON CITY, Mo. (AP) — The Missouri House and Senate have overcome a three-week deadlock on a \$35 million emergency appropriations bill, sending it to the governor.

The measure, approved by both Houses Thursday, aids several state agencies that have run short of funds until the next fiscal year begins July 1.

Other spending includes \$6.2 million for a new state optometry school in St. Louis, \$550,000 for St. Louis County storm sewers and \$50,000 to buy options on land for two new prisons.

Meanwhile, the House tentatively approved a proposed constitutional amendment that would legalize bingo and a bill revising the state's lobbying law.

And the Senate gave first-round approval to increased pay for policemen in St. Louis and Kansas City. On the emergency funding bill, Senate

Appropriations Chairman Norman Merrell said the storm sewer money was "the only concession the Senate really made." The Monticello Democrat added,

"We've never had an emergency appropriations bill this late in the year.'

In other police news, two dogs, valued at \$140, were stolen when thieves burglarzied the Dog House, 116 West 16th, sometime Thursday night. Entry to the building was gained by prying open a door.

Gertrude Morris, 322 East14th, reported to police Thursday afternoon that her purse was taken from her locker at the Safeway Store, Broadway and Ohio. The purse allegedly contained \$30 in cash and a check

An employe of Bryant Motors Co., Second and Ohio, reported to police Thursday afternoon a \$97.50 starter was taken from a pickup truck on the company's used car lot Wednesday night.

Stealing charges dismissed in court

A charge of stealing more than \$50 was dismissed Thursday in Pettis County Circuit Court against Arthur W. Seabury, 17, 416 West Henry.

Sedalia police arrested Seabury and three other persons on Oct. 29 in connection with the theft of a tape player two days earlier from a car owned by Larry Lindecrantz, 201 South Lamine. Pettis County Prosecuting Attorney Gary

Fleming said the charge was dismissed because, "his (Seabury's) part in it (the alleged theft) at best was watching and not doing.' Seabury had been the Smith-Cotton High

School student body president until his

felonious stealing charges. They are free on bond of \$3,500 each. The Senate passed the measure 28-0 and the House approved it 136-15. The Senate won its fight to delete more

than \$1 million for the mobile breast cancer detection program, but agreed to restore funds in the regular budget. Another stumbling block was funding

for two medium security prisons near Kansas City and St. Louis. The Housebacked \$500,000 to purchase two sites was pared down to \$50,000 to purchase land options and make a study.

The House proposal of \$1.5 million for St. Louis County storm sewers was also

House Appropriations Chairman James Russell, D-Florissant, called the measure 'a good compromise." During conference committee hearings, Merrell said he saw little in the measure that was an emergency.

Merrell and other senators have criticized state agencies for not staying within their budgets.

Approval of the House bingo measure came on a 66-64 vote. It will need 82 votes to be finally passed and sent to the Sen-

The proposal would allow bingo only for charitable purposes. If approved, it would be submitted to Missouri voters next year and would need a simple majority vote.

Revision of the 10-year-old lobbying law would expand registration and reporting requirements to the executive branch of government. State law only covers lobbying in the legislature.

"The present law is a farce," said Kansas City Democrat James Baker. There has never been a conviction under the law, and lobbyists compliance has been minimal.

Cole County Prosecutor James Mc-Henry, who is responsible for enforcing the law, said he doesn't have enough personnel to do the job. The bill permits private citizens to seek court action against lobbyists, but leaves much of the enforcement with the county prose-

belongs to the city or the highway department because Ohio street also is part of state Highway 750.

City Engineer Robert Cunningham Friday said the State Highway Department maintains Highway 750 from the north city limits to Pacific Street, which is the first street north of the Missouri-Pacific railroad tracks. From Pacific street south to the end of Route 750 at Broadway, the city is responsible for maintenance, traffic lights and all other street-related items. This is the downtown area discussed as the possible tree-planting site.

Foster pointed out that several local residents have been spraying recently for bagworms on evergreens. Foster, owner of Jim's Garden Center, 1000 West Main. explained that the season for spraying for bagworms does not begin until June 15.

He said premature spraying pollutes the air with unnecessary insecticides because the evergreens will need additional spraying later in the summer.

High speed chase results in accident

Minor damage was done to a Sedalia police car during a high-speed chase Thursday night east of the city limits on Highway 50.

No injuries occurred in the accident. Police reported that officer Robert McDonald, 27, 1804 South Prospect, began chasing a cream-colored Plymouth east on Broadway at Engineer in a patrol car. The

Both the police car and the Plymouth were passing a string of cars just west of the junction of Highway 50 and TT when both began to pull in behind a large truck traveling east. Police reported that as McDonald started to pull into the right lane, the Plymouth began to pull out into

the left lane again. The driver of the truck then applied his brakes. The Plymouth and the police car also began to slow down. The police car was unable to stop before striking the rear of the Plymouth. McDonald reported that he was traveling at about 105 miles-perhour at the time of the accident.

McDonald said he was unable to stop the police car for about half a mile, however, the car he had been chasing did not stop.

Buena Vista Home finances reported

The Buena Vista home for the elderly has operated in the black for the past five months, according to a treasurer's report

received Friday. The Pettis County Association for Social Service, Inc., the non-profit, 12-member organization that administers the home. was told by treasurer and ex-officio member of the board Frank Wagner that the home had a bank balance of \$2,646.67

as of April 30. Wagner, who has handled the home's bookkeeping for several years, noted that this was the first time in three or four years

that the home has been in the black. The home reported its first non-deficit balance in December. The County Court had picked up the home's operating deficit for some time prior to that.

Insect fogging operation delayed

Because of a malfunction in the city's insecticide-fogging machine, city sanitation crews were not able to fog the Missouri State Fairgrounds and surrounding residential areas Thursday night to kill flies, City Sanitation Superintendent Gary Johnson explained Friday.

However, Johnson said, the crews did spray manure piles on the Fairgrounds with regular insect sprays. The waste is scheduled to be removed soon by State Fairgrounds maintenance employes, it was stated Thursday.

It is hoped the fogging machine will be repaired and ready to operate by sometime next week, Johnson said.

Lloyd Banaka

Lloyd Banaka, Walnut Hills, district manager for the Prudential Insurance Co. of America, Thursday night was named campaign chairman for this year's United Way fund-raising drive.

Banaka, a member of the United Way board, has been involved in conducting United Way campaigns in Manhattan, Kan., and Topeka, Kan. He moved to Sedalia seven years ago from St. Louis.

"I am optimistic about the campaign for this year," Banaka said. "The agencies have submitted realistic budgets and the hearing committee will recommend a realistic budget. We have a lot of very capable and enthusiastic people and they are dedicated to the United Way.'

Commenting on Banaka's appointment, United Way board chairman Robert Fritz said, "I feel the United Way is fortunate to gain the services of Lloyd. He has served on the local board and he has experience in conducting United Way campaigns ... His success with the growth of the local Prudential office is a testimony to his ability as an organizer and administrator and we are grateful for his contribution."

It was also announced at the meeting that all the agencies served by the United Way have requested a total of \$111,000 in funds. The final budget figure, to be submitted to the general board for approval at a noon meeting next Friday at State Fair Restaurant, will be closer to \$100,000, it was reported.

Probation granted in bad check case

Clara M. Chiles, 22, 213 East Second, was sentenced to six months in jail and placed on probation for one year Friday morning

by Circuit Judge Frank Meyer. Mrs. Chiles was arrested by the Pettis. County sheriff's officers April 9, 1973, for allegedly passing a no-funds check for \$67.60 at Roth's Department Store in the

Compensation to Missouri's jobless is down

Unemployment benefits paid by the Sedalia office of the Missouri Division of Employment Security decreased during April to \$497,174, comlared to \$542,404 in March.

Statewide, a total of \$27,854,362 in unemployment compensation was paid to 130,000 jobless workers. That figure also showed a decrease from the \$28,912,159 paid in March to 145,000 jobless.

The 15,000 drop in those filing for unemployment benefits during April also coincided with a drop to a weekly average benefit payment in April to \$55.76, compared to \$56.14 during March.

Oil find makes new millionaires

By KENDAL WEAVER **Associated Press Writer**

CREOLA, Ala. (AP) - A "new breed of millionaires" may rise out of the hardscrabble populace of North Mobile County thanks to one of the largest oil finds since the first shocks of the energy crisis.

Dear Ann Landers: I am a 14-year-old boy who has two problems. My aunt and my uncle

They live 200 miles from here and come every month and stay for a week. I have to give up my bedroom and sleep on the floor because they are "guests."

This aunt and uncle have two children who live in this town and I don't see why they can't go stay with them.

When I complain to my mom and dad they say I am at "that age." Some answer. What do you think about a kid getting treated this way? - Displaced

Dear D.P.: If you were asked to give up your room for a couple weeks at Christmas or Easter, or for an occasional weekend, I'd say O.K. But according to my figures you are spending 25 per cent of your nights sleeping on the floor. I don't think it's fair.

How about a pull-out sofa or a double cot for your aunt and uncle since they are such frequent guests? Suggest it — and quote me. (P.S. You might also quote the wise man who said, "Relatives, like fish, begin to stink after three days.")

Dear Ann Landers: I was both amused and infuriated when I read the letters from guys who lambasted "In Tact," the 18-year-old virgin. They

Dear Perp: It sounds like a gross misunderstanding. The reverse is far more feasible. Guests are often omitted from the wedding (especially if it's the second time around for the bride or groom) but they are invited to the reception. I can't imagine inviting a couple to come from out of town for the ceremony and not offer them the sociability and refreshments that follow.

DALLAS (AP) - Seventeen meat packers who represent 80 per cent of the baby beef market say changes in the standards for meat graded "good" will drive up the cost of cattle and cause them to lose \$3.8 mil-

The meat packers have filed suit in federal court here because they claim the new "good" grade would hurt ranchers and feedlot operators and would drive prices up because the cattle would have to be put on a longer feeding

The suit charges that under the proposed new meat regulations much of the packers' baby beef would be downgraded from "good" to "standard," making the meat unsaleable to chain store buyers.

The new grades would lessen marbling requirements for "prime" and "choice" meats, but hike the standards for "good" meat, the suit alleges.

Bicentennial of state pawn broker

By ROSETTE HARGROVE

PARIS - (NEA) - One of the best-known institutions in Paris, the Credit Municipal, that is, state pawnbroker, marks its 200th year this month. Much water has flown under the picturesque bridges of the Seine since then, and there have been many changes, some revolutionary, in public life.

Perhaps the most truthful mirror of these are the conditions now ruling at the somewhat gloomy old Credit Municipal

Here one is made to realize the differences which rule the lives of French citizens. Social security, old-age pensions and welfare have caused the disappearance of distressed citizens who once would wind their way to the rule des Francs Bourgeois to pawn pots and pans, mattresses and countless other humble possessions for a few francs.

But these few francs, as little as five sometimes, could buy a week's food for a family or help pay the rent at the beginning of the century. Every day save Sunday, the hard wooden benches in the vast waiting hall would be occupied by the down-at-heel, side by side with the better dressed, come to pledge a piece of jewelry, a telescope or a pair of binoculars.

Today the benches are practically empty. An elevator leads to the second floor where loans of more than \$70 are obtainable, while the third floor is given over to the more humble objects, like the old camera brought by an aged man appraised at \$6 or a pile of records carried in by a young

In 1974, 82,000 pledges were registered, representing 80 million francs in all (around \$20 million). In 1890, however. there were two million pledges and 600,000 in 1930. A borrower some years ago was able to raise \$10,000 on some jewels, but twothirds of the loans do not exceed \$150. Employes and retirees form 92 per cent of the clientele. They usually turn up at the end of the month when funds are low or pensions delayed.

Rates of interest are low -12per cent for loans under \$6.15 to 16.5 per cent for larger sums.

When the Credit Municipal was opened in 1775, it was as a protest against avid moneylenders and pawnbrokers. Easier bank loans and credit and installment purchasing have seen those small loan shops all but disappear except in the few remaining slum districts.

Pawned items these days tend to be magnetophones. stereos, cameras, electric guitars. washing machines. freezers. grills and other modern kitchen gadgets. besides rugs and pictures.

With the first flowering of the chestnut trees, however, there is a procession of well-dressed women who carry in bundles under their arms, mink or chinchilla coats, and sable stoles which they have come not to hock but to turn in for safekeeping. Obviously the majority do not need the money, but this is the dream place to store furs for the summer. There are airconditioned rooms and employes to keep an eye on them - all much cheaper than sending them to a furrier for cold storage. As an example, a coat valued at \$2,000 rarely fetches more than \$200. Come winter, the smart woman will redeem her coat after paying the minimal interest, \$25. This procedure also applies to table silver, objets d'art or anything

In the store rooms are a respectable number of valuable rugs, tapestries, enormous vases and chandeliers of turn of the century vintage. Not all these pledges represent the owners' need of money. In most cases they merely look out of place in the smaller modern apartments. Also, insurance companies demand serious

The Credit Municipal, in effect, is a mini-Fort Knox. And, finally, the rate of interest is far below that of any private

Officials of the Credit Municipal are well aware of these facts. But how they can distinguish between a citizen who needs and applies for a temporary loan which they repay as soon as possible from those who regard it as a quasifree safety depot?

A director tells how, some 10 years ago, it was still possible to pledge an automobile for threefourths of its market value. In an outlying district stood a garage which could house 3,000 automobiles for the winter. Their radiators emptied, placed on blocks, these were regularly dusted and guaranteed against freezing temperatures. Now most people have a garage or park in the street.

Every year around 8 per cent of the pledges are put up for sale by auction. Sometimes it is

a drama for the person who has not been able to pay the interest on time, for others it's a godsend. The sale of a refrigerator (too big or out of date), the electric appliances not exchangeable, the TV replaced by a color set or any other redundant object is all right by owners. They will pocket the proceeds of the sale, less the loan and interest he "forgot" to pay.

Flea Market stall holders and secondhand dealers make up the majority of buyers at this sale. In the last decade, trunks full of old laces, porcelain, and vintage dresses have come up for sale because so many old apartments have disappeared in the new town planning. But prices have risen with the devaluation of the franc.

Credit Municipal has replaced the oldtime "fence." But to add insult to injury, 10 years ago a clever conjuror managed to sneak \$3,000 from a cash register when the employe's back was turned.

such matters. If, as a member of Company on a hunting trip. the governor's staff indicates, there is a custom of making additional payment to resigned commissioners, this custom should be stopped.

Frankly we are not in a position to say whether or not the payments were legitimate. James F. Mauze, who left for another job in mid-April, has received \$3,333 from the state to cover the period to June 2. That represents 30 working days that Mauze said he had accrued. June 2 is the effective date of his resignation. Earlier this year state records show the state paid William R. Clark \$4,283 for 36 days

The disclosure that two former he claimed he had accumulated members of the Missouri Public before leaving the commission. Service Commission received Clark resigned from the payment for vacation time to which commission after acknowledging they claimed they were entitled he had been the guest of should lead to tighter control over Southwestern Bell Telephone

> Citizens who pay taxes have a right to question the rather loose arrangement in which vacation records on commissioners are kept. Public officials should not be expected to be deprived of time away from their job. By the same token vacation time should not be used as a device for receiving extra pay. There is no reason why commissioners who resign should receive a bonus.

This is a matter that needs attention. Public officials are entitled to vacations but they are not entitled to abuse the state treasury. (Kansas City Star)

Merry-go-round

By JACK ANDERSON with Les Whitten

WASHINGTON - From a remote lakeside near the Russian-Finnish border, the Soviet Union is aiming a mysterious microwave beam at the United States.

American intelligence experts believe the strange beam keeps a round-the-clock watch on U.S. missile sites in the Dakotas.

The rays are so powerful that most Russians in the vicinity reportedly have been moved out. They now monitor the beam, it is believed, by computer from afar. But just across the border, unlucky Finns have developed alarmingly high rates of cancer and heart diseases.

Because of the dangerous radiation from the powerful microwave rays, Soviet scientists reportedly direct the beam from the safety of a distant headquarters. But the Finns across the border have been afflicted with unusual maladies.

In the Finnish towns of Kuopio, Jeonsuu and Ilomantsi, the World Health Organization has discovered extraordinary rates of cardiac disease. Ilomantsi, the town nearest the microwave station, has the highest rate of any place its size in the

Two other border hamlets, Koitsanlahti and Parikkala, have shown inexplicable increases in cancer.

An American physician and microwave scientist, Dr. Milton Zaret, investigated the strange plague that has hit these small Finnish towns. At a Warsaw meeting of microwave specialists, he blamed the Lake Ladoga installation for the diseases.

The dangerous microwaves scatter from the main beam, he declared, just as droplets fall near the nozzle when water is

squirted from a hose. Footnote: There has been increasing evidence that exposure from radar and other microwave devices can cause cataracts and damage the nervous system, blood, genitals and genes. Yet the producers of microwave ovens discount the danger. They are supported by the Pentagon, which would have to change billions worth of military radar and related equipment if U.S. safety standards are tightened.

* * * THE FUDDLE FACTORY: The only thing worse than doing business with a government bureaucracy is dealing with

three bureaucracies. Take the case of Solomon Ward, an unhappy painter from West Virginia.

He was one of 13 unlucky men who did some painting at Wright-Patterson Air Force Base, Ohio, back in September and October of 1973. They never were paid a dime by the contractor, the H. J. Stewart

He men appealed to the Air Force and Labor Department. But nothing happened. Not until Ward got his congressmen, Ken Hechler, D.-W.Va., to badger the Pentagon did the Air Force get around to investigating the case.

The Air Force concluded that the H.J. Stewart Company did indeed owe the 13 painters \$14,183.63 in back wages. Accordingly, the money was withheld from the contract to pay the men.

Did they get the money? No, this would have been too simple a solution. The

Forecast of Soviet plans errs

By RAY CROMLEY **NEA News Analyst**

WASHINGTON (NEA) - A decade ago, the National Security Council and Defense Secretary Robert S. McNamara developed a long-range prediction of Soviet military

these past 10 years has been predicated on these estimates. They guided the multibillion dollar buildup of missiles, planes and other weapons, determined the composition of our defense forces and the thrust of our research and development.

U.S. defense strategy

No new comprehensive study has been

Today, it is clear these estimates made so carefully and with McNamara precision early in the 1960s were dead wrong

The McNamara studies predicted the Soviet Union would concentrate on defense. Instead. Moscow has put its maximum effort on offensive weapons.

✓ Instead of the gradual buildup expected, the Soviet Union has devoted multibillions to a massive all-out effort.

 ✓ The prediction was that major Soviet missile programs would be held back by harsh technical problems. Instead, Soviet scientists have achieved MIRVing and accuracy breakthroughs with astonishing speed. There is no suggestion of a slowdown in the rate of these advances.

The Soviets also have shown an amazing ability in the concurrent development of new weapons involving huge sums of money and the mobilization of tens of thousands of technicians. The Russian program under which four new major missiles are being readied, would have cost us \$12 billion in research and development alone. The Soviets have placed a much heavier concentration of scientists than predicted in their military programs and have put a much greater than expected sustained effort over these 10 years into the training of military scientists. Some independent scholars now suggest that perhaps 90 per cent of all qualified Soviet research men are in the USSR defense program.

The diversity of sophisticated Soviet weapon development is greater than was foretold; in addition to the four new major missile families, there are warships of advanced design, military lasers, preliminary mobile missile prototypes, reloadable-type missile silos, way-out antitank and anti-aircraft weapons, radar and bridging equipment.

✓ The orderliness and consistency in the Soviet military research and development effort has been grossly underestimated. They have moved smoothly into new programs as old ones were completed. It is a persistent, rolling effort that has grown without letup, without the ups and downs, starts and stops associated with U.S. military developments.

 Russian military advances have been held back less than expected by economic

As a result of these miscalculations, the United States has gone off on the wrong track. Our original mistakes have been compounded by our neglect in not continually bringing the original studies up to date with successive corrections based on the reams of satellite, agent and electronic intelligence we have been gathering these many years.

This is not to argue we should have spent more on defense. It is to say that we would, if we had analyzed the data thoroughly, have spent the funds we had more wisely Our missiles, warships and submarines and our ground weapons would have been built with different characteristics. Our force structure would have been radically

Fisher best Tigers' hope

By VAUGHN HART Sports Editor

The high school career of Steve Fisher, the best distance runner in the history of Smith-Cotton High School, comes to an end Saturday at St. Louis Parkway North High School, site of this year's state 4A track meet.

"Probably our best hope lies in him," said head track coach Norris Kelley of the Tigers chances for scoring points in the season's finale.

"He is a great competitor and a top-flight athlete." Kelley added.

Fisher holds both the Smith-Cotton mile and two-mile records. His time in the mile, established this year, is 4:24.4 His best in the two-mile is 9:23.8, which was set in last week's district trials in Springfield.

Fisher is no newcomer to state competition. This year is his third straight trip to the outdoor meet. As a sophomore, he placed seventh. Last year he ran second to Steve Welch of Hannibal.

He's been to the state indoor meet twice, finishing fifth in 1974 and third this year, when he ran the fastest time ever indoors or outdoors for an S-C athlete with a clocking of 9:21.2.

Fisher's chief competition is expected to come from Randy Nash of St. Joseph Central and Mark Taitt of Independence Truman. The two nipped Fisher at the finish in the '75 indoor

The Smith-Cotton two-mile relay team could also bring home some points, but in order to do so, assistant Tigers' coach Leonard Butler says, "... They have to get under eight minutes."

The tandem of Fisher, Bob and Bryan Kelchner and Craig Faubion turned in a school record with an 8:04.5 in winning the district. But facing them on the state level are times like 7:48.5 turned in by Truman in a Kansas City area district meet last

Other top two-mile relay times include Kansas City Rockhurst's 7:50.1 and Raytown South's 7:52.2.

"That's why I say that we're going to have to break eight minutes if we expect to pick up any points in the relay." Butler concluded.

Other Smith-Cotton entries in Saturday's state meet include Mike Riley (Discus and shot put). Bruce Kerr (180-yard low hurdles), the two Kelchner's (880). Dwight Butler (120-yard high hurdles), Tony Dabney (440) and Jeff Mittelhouser, who

was runner-up to Fisher in the open two-mile. Normandy of St. Louis County won the championship last year, while St. Louis Sumner placed second. Sumner is among the favorites to take the team title this year, while Kansas City's top hopes rest with Rockhurst and Center.

The preliminaries are scheduled to get underway at 10 a.m. Finals start at 1:45 p.m.

The class 3A meet will also be held Saturday in Mexico.

Memorial Day Challenge

Hassler ups purse \$1,000

Entries have started trickling in for the second in a series of five auto races scheduled for the Missouri State Fairgrounds presented by Hassler and Associates Racing Enterprises.

In the stock car division, Mike Dibben, the late model champion at Lakeside Speedway in Kansas City, has filed an entry. Dibben is currently leading the points race in his quest for a second track championship.

Bud Dibben and John Oswalt, two other Kansas City-area stock car pilots, have indicated they will try their hand on the Fairgrounds' half-mile dirt track Memorial Day, May 26.

Fulton businessman Dale Hassler has upped the purse another \$1,000 to bring the total payoff to \$5,000. Twenty-five hundred dollars will be up for grabs in the two divisions sprint and late model.

Billed the Memorial Day Challenge Race, drivers from three states are expected to swell the field to 70 cars.

The winners of Hassler's first promotion last month, Gene Gennetten and Larry Walters, have indicated they will be back for a second try. Gennetten, Gladstone, Mo., won the sprint feature. Walters, a little-known driver from Lowry City, Mo., was the winer of the late model stock car feature.

Advance tickets priced at \$3 (adults) and \$1 (children) will be

on sale May 23-24 on the Fairgrounds.

The Memorial Day program is scheduled to get underway at 1 p.m. with hot laps. The first sprint qualifying heat race will get the green flag at 2 p.m.

The bay son of What A Pleasure is the 6-5 choice to add the Preakness to his Kentucky Derby victory as he goes in search of the second Triple Crown sweep in three years.

But the Preakness will be the 13th race of Foolish Pleasure's career and the 13th anniversary of trainer LeRoy Jolley's trip to Pimlico with another favorite, Ridan, who wound up second in the 1962 Preakness.

The favorite's role against a field of nine challengers puts no special pressure on Jolley. "I'd rather have the favorite than any of the others," he said.

Parent turns back Sabres

PHILADELPHIA (AP) - As the seconds ticked away in the closing minutes Thursday night, 17,077 voices rose in unison. "Ber-nee! Ber nee!" they chanted in exultation of Bernie Parent, the goaltender who has shown the Philadelphia Flyers hockey's promised land: the

"Ber-nee! Ber-nee!" they implored, almost begging for some sign of acknowledgement from their hero.

Behind a painted fiberglass mask. Parent heard their call and smiled. "It's good," he said of the support he and his teammates receive at their Spectrum home. "That's why we work so hard to have the

extra playoff game here. Hard work-Parent's hard work-closed the door and the goal on the Buffalo Sabres Thursday night in the opener of the National Hockey League's final playoff series. Parent was astonishing in the 4-1 triumph. especially during a full minute of siege while the Sabres had a two-man advantage.

The pressure was on. Buffalo had not won here in their fiveyear history. They had never beaten Parent. And they had lost the last 13 exhibition and regular season meetings to the Flyers-with or without Parent.

So when Philadelphia right wing Gary Dornhoefer and defenseman Andre Dupont were sent off with penalties within a 56-second span. Buffalo pulled out all its offensive stops.

And Parent pulled all the defensive ones. Shot after shot rocketed towards his goal. Leg save, stick save, glove save...and the Sabres were "It was one of those things."

Parent said. "You make the right move, the puck hits you, then you get a few breaks and win the game.'

Others were far more laudatory of the 30-year-old goaltender who held the fort until a slow-starting Philadelphia attack could get moving.

The Flyers managed only two shots in the first period, the first by defenseman Ed Van Impe with 8:42 left in the session. There were eight more shots in the second period, but

no goals. Thanks to Parent. however, Buffalo hadn't scored. A break led to Bill Barber's opening score, at 3:42 of the

third period. Van Impe's shot from the the blue line took a crazy hop off the backboards. and while Sabres netminder Gerry Desjardins looked to his right for the puck, it had rebounded to Barber at the left side of the net.

Barber's first of two goals opened the floodgates against Desiardins, who was beaten 21/2 minutes later by Ross Lonsberry and at 11:41 by Bobby Clarke.

Russ Francis gets big Pats' contract

FOXBORO, Mass. (AP) Russ Francis, a professional wrestler and former tight end at the University of Oregon, has agreed to a six-figure, multiple year contract with the New England Patriots.

The National Football League team announced the agreement Thursday but said Francis has not yet signed to contract. He was the Patriot's top draft choice this year.

As a junior, he caught 31 passes for 495 yards at Oregon. He didn't play college football in 1974 because of a dispute with the coaching staff. Last winter he had a brief career as a wrestler.

Becoming scouts

Six boys became Boy Scouts Thursday night as part of the first outdoor Court of Honor for the Twin Forks District. Taking part in the event were 37 boys from six Scout troops from Sedalia and the county. The boys were awarded levels of Scouting from Tenderfoot to Eagle Scout. Elevated to Eagle Scout were Wesley Yates, 1600 West 11th; Neil Upton and Mark Curtis, both of Green Ridge. The outdoor assembly was held on the Cal Rodgers farm at Hurd and Griesham Road. Diet important to good heart

Dear Dr. Lamb - I am a 71year-old man and had my first number of different opinions on angina attack at the age of 49. This attack was severe, worse disease and prevention of than any of the subsequent atherosclerosis. Almost attack that took place over the years. During my 50s I lived a miserable existence. I couldn't really helps is to eliminate walk a full block without excess body fat through diet and stopping to let the heart pains subside. I was using 10 to 15 unanimous agreement on the nitroglycerin pills daily and was other points. in a constant state of depression due to my condition.

I the clinical aspects of the wasn't actually convinced that problem, dealing with people, it would help, and I would go believe that it is important to off the diet sporadically. limit fat intake, particularly to Usually when this happned I limit saturated fat and limit would end up in the hospital cholesterolintake. with another attack that nitro pills couldn't handle. Then in on these steps and also 1967 I discovered Questran, and emphasizing the importance of I started taking it twice daily and also went on a very strict polyunsaturated diet. I brought my cholesterol count down from 360 to 215. I am able to do many things others my age can't do, such as play tennis, ride a bicycle, gardening, etc., and I have no need of nitro pills haven't touched one for three of four years.

Recently I picked up a book in the library that, in effect, tells me a polyunsaturated diet will eventually give me cancer, shorten my life, make me look prematurely old, and affect my skin adversely. I believe I am the living antithesis to these statements. I have been on a low-fat diet for more than 20 years and instead of looking older I look much younger than my actual age. My skin looks as though it belonged to a person 15 years younger, and I am healthier right now than I have been for the past 22 years. Whose axe are these people grinding?

Dear Reader - There are a the importance of diet in heart everyone of any competence agrees that the one thing that exercise. There is less

It is fair to say, though, that most of the serious scientists During that period I was who have actually worked on

With the combined emphasis stopping smoking and obtaining regular sensible exercise, there has been a turn around in the incidence of heart attacks in men between the ages of 35 and 64. must agree, the evidence that taking lots of polyunsaturated fat in the diet helps prevent heart disease is a bit meager or unconvincing, but I am satisfied that you are wise to limit the total fat and particularly the saturated fat in the diet. This won't help much, though, unless you really

eliminate or prevent obesity. In any event, you are a good example of what can be done in some cases through proper diet and medical treatment. The problem often is that the diet isn't really given a fair trial, or the person will not actually follow it. Congratulations on your success.

Panel could save site

JEFFERSON CITY, Mo. (AP) - What has been described as an archeologically significant site in Jefferson County could be preserved if a proposal to be offered to the House Appropriation Committee next week receives a favorable reception.

The measure would provide \$200,000 in an effort to save a tract of land containing buried mastadon bones.

The money for the project is included in a capital improvements budget proposal for the year beginning in July. That proposal was apparently drawn up by Appropriations Committee Chairman James Russell of Florissant and his committee staff. It was presented Thursday to an appropriations subcommittee.

The proposal calls for the state, through the Park Board. to assist concerned Jefferson County residents in efforts to save the prehistoric site . Russell said. He noted that the suggestion was made by Charles Becker of Arnold.

Under the plan, the state would provide \$200,000. About \$300,000 would come from federal funds and \$100,000 would be provided by citizens in the

The money would go toward construction of a park, which would include riding and hiking trails, picnicking areas and a scout camp.

The land is owned by the state Highway Commission and was acquired during road construction in the county.

It was tentatively sold to a St. Louis County investor group and persons concerned about saving the mastadon boneyard attempt to halt the sale, fearing any construction in the area would destroy the bones.

The commission agreed, after a series of hearings, to give a group of Jefferson County residents until December of this year to raise the necessary funds to purchase the land, and those efforts are now in prog-

Young concert pianist will give recital

Mary Anderson, 20-year old concert pianist and senior at Stephens College, Columbia, will present a piano recital at 3 p.m. Sunday at the State Fair Community College Student

A St. Louis native, Miss Anderson began studying piano at the age of four and, from age 8 to 13 studied with Jane Allen before moving to Tyrone, Pa. At that time, she was awarded a scholarship to the Julliard School of Music, where she studied for four years. In 1972, she was a winner of the Dimitri Mitropoulos National Piano Competition at Stephens

Miss Anderson has appeared in recital frequently in the Missouri area, at Pennsylvania State University, at Southern Illinois University and as soloist with orchestras in the midwest. She recently won the St. Louis Artist Presentation Society Award for 1975 and will be presented in debut recital there during the 1975-76 season.

Grand jury indicts two police officers

ST. LOUIS (AP) - A federal grand jury has indicted two city police officers on a charge of beating a 17-year-old youth outside his home last summer.

Officers Jack Fleming and Lawrence Hinton were charged Thursday with wilfully striking and assaulting Robert Rueter and thereby violating his constitutional rights.

According to U.S. Atty. Donald Stohr, the incident occurred last July 2 when a member of the Rueter family asked the police to find out where the youth had obtained some wine he had drunk before coming home.

Fleming and Hinton were charged with beating the youth with their night sticks. Rueter underwent surgery for facial fractures and also received treatment for an eye injury.

St. Louis police officials have not commented on the indictment

A Missionary or a Mission Field??

God has said in his word that we are to, "Go into all the world and preach the gospel to every creature," This is the job of a missionary. Everyone who is saved is committed to being a missionary. If you are not a missionary, then you are a mission field yourself. Without Jesus Christ as your Savior you are part of the harvest that needs to be reaped. How do you become a missionary instead of a mission field? Simple. Follow what God has said in his word.

1. ALL MEN ARE SINNERS — "As it is written, There is none righteous, no not one; There is none that understandeth, there is none that seeketh after God." — Romans 3:10, 11

2. THERE IS A PENALTY FOR SIN — "Wherefore, as by one man sin entered into the world, and death by sin; and so death passed upon all men, for that all have sinned" Romans 5:12

3. GOD HAS PROVIDED A WAY OF SALVATION — "But God commendeth his love toward us, in that, while we were yet sinners, Christ died for us." — Romans 5:8

4. SALVATION COMES BY ASKING GOD FOR IT — 'That if thou shalt confess with they mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved ... For whosoever shall call upon the name of the Lord shall be saved." — Romans 10:9, 13

Filmation saturates the tube for kids

By LEE MARGULIES **Associated Press Writer**

LOS ANGELES (AP) -One of the busiest independent producers for the three television networks next fall will be a studio that doesn't produce a single show for use at night.

Or on weekdays.

Or on Sunday.

Saturday morning - children's prime time - is the only time one sees a series from Filmation Studios. And then one sees plenty of them.

Come September, Filmation will have seven new series airing on Saturday morning - one animated, three live-action and three combinations of the two forms. They will be on all three networks and in some cases will be competing against each other in the same

The new season will cap a rapid 10-year climb for the company - from a one-room, three-man outfit \$9,000 in debt, to the top producer of

TV fare for kids. Hanna-Barbera Productions, which has dominated the Saturday morning production schedule for years - it had 14 cartoon series this season alone also will have seven series next fall.

But five of them are reruns. so it will be producing only 32 half-hours of new material, one-third of Filmation's

'It's a great feeling," gloats Norm Prescott, who runs Filmation with founder Lou Scheimer. "It's nice to know there are 25 million children out there who are our kids.'

Ten years ago all Prescott and Scheimer had was two kids apiece - their own.

They were teamed with Hal Sutherland, an experienced animation director, knocking out an occasional commercial and trying without luck to raise money for an animated feature called "Journey Back to Oz."

Scheimer, an art major at the Carnegie Institute of Tech-

nology, formed the company in 1962 after working as an animation designer for seven

Prescott was a radio disc jockey in Boston and New York in the '50s and then was an executive in Joseph E. Levine's Embassy Pictures Corp. before striking out on his own and eventually joining

What turned things around was an offer from National Periodicals in 1965 to produce a 'Superman' cartoon series for CBS. It was a big hit and Filmation has been on the rise ever since. Some of the cartoon series it has turned out in the intervening years

"The Hardy Boys," "The
Brady Kids," "My Favorite Martian," the long-running "Archie," "Star Trek" twice nominated for an Emmy award - and the highly acclaimed "Fat Albert and the Cosby Kids."

Last year Scheimer and Prescott - minus Sutherland, who had retired capitalized on the networks' growing demand for live-action material for their Saturday lineups by doing "SHAZAM!" with real

"SHAZAM!" and "Fat Albert" will be back on CBS with some new episodes next fall, as will the company's animated "The New Adventures of Gilligan" on

The new Filmation shows in September will be "Isis," a

live-action mystery featuring a woman with super powers; "The Ghost Busters," a liveaction comedy with former "F Troop" stars Forrest Tucker and Larry Storch; The Secret Life of Waldo Kitty," about a real cat with animated Walter Mitty daydreams, and "Uncle Croc's Block," an hour-long show using cartoon characters and real actors to satirize other children's programs.

What's the Filmation

Scheimer and Prescott profess not to be certain themselves. They mention their constant striving for quality and an ability to gauge what the kids will go for.

Their decision to move into live-action production also played a key role. And it helped when they opted years ago to let each cartoon series develop on its own merits rather than imposing a Filmation "look" or "style," as Hanna-Barbera has done.

Saturday morning star

"Fat Albert." the children's television cartoon series featuring the character of that name shown here, is a highly acclaimed product of Filmation Studios. This company is now the most prolific producer of new television fares

for children. Come September, they will have seven series airing on Saturday mornings — one animated, three liveaction and three combinations of the two forms — and they'll span all three networks.

Married but

Are Sally Field and John Davidson husband and wife? - Mrs. Helen Merichle, Minn. Sally and John are married, but not to each other.

Lee's role

My mother and I have a \$10 bet on this. Did Bruce Lee play Kato on The Green Hornet? I say he did and my mother says he didn't. Larry Owens, Dardanelle,

Lee did play Kato to Van Williams' Hornet. A movie has been put together from various episodes of the series, cashing in on the late star's extraordinary popularity.

Not his Dolly Is Mery Griffin married to

No. Merv is divorced, but he was never married to Dolly.

Wrong fellow How old is Ron Howard of

Happy Days? My dad says he is 36. I say he is about 20 or 21. - C.R., Chicago.

Boy, dad is way off. Ron is 21. Just maybe your father is mixing him up with British actor Ronald Howard, the son of the late actor Leslie Howard. That Howard is in his 50s, however. Or how about Ken Howard, who plays The Manhunter?

Sam is wanted

I have been a great fan of Sam Elliott's since his days on Mission: Impossible. Please

Dolly Parton? - H.M., Lisle, tell me where I can write to him. Please hurry. I need this information for a project I'm working on. — Kellie, Fort Wayne, Ind.

> Sam recently had a major role in the TV film "I Will Fight No More Forever." Write him care of the producer, Wolper Productions, Third and La Cienega, Los Angeles, Calif.
